

Winter Newsletter

Plain English Version

Saint John of God Housing Association CLG

November 2018

[Edition 2, Volume 2018]

Welcome

As the winter is drawing closer and the summer is looking to be a distant memory, it gives us time to reflect on what has been a very busy year so far.

With a total of 405 units of accommodation nationwide that the Housing Association now either owns or manages and with the 21 new units in the first half of the year alone, it shows how busy the sector is, trying to get people

Housed as quickly as possible.

There have been some beautiful homes for our tenants this year, ranging from detached group homes to single

apartments throughout the country, ensuring that our tenants wishes were carefully followed through on as well as their hopes and aspirations.

We wish all of our new tenants every happiness in their new home and look forward to providing them all with the highest level of service.

Please do take care throughout the Winter months ahead and don't forget to check in with your neighbour if they are vulnerable.
